VitrA

We progressively invest in essentially human spaces - the bathrooms.

The complete bathroom

VitrA designs and produces complete bathrooms that satisfy both physical and emotional needs, with a coherent harmony between all the individual elements.

It's all about inspiration

Making change in the bathroom begins with understanding human needs and desires, inspiring consumers to make the best choices.

High powered perfection

Seven factories around the world produce sophisticated ceramics, furniture, faucets and tiles, upholding world-class standards and reducing environmental impact.

Collaboration with designers

VitrA collaborates with acclaimed designers internally and around the world, infusing products with creativity and originality.

VitrA across the world

VitrA's bathroom designs are admired by customers around the world, through 2,000 sales points in over 75 countries, including 150 exclusive showrooms.

Technology lights up the future

VitrA Innovation Centre leads the bathroom industry with human-centric solutions and technology, powered by a strong engineering team.

Improved personal hygiene

VitrA's innovative hygiene technologies, informed by extensive research and knowledge, enhance human health and elevate the personal hygiene experience.

Bathrooms for our planet

VitrA is dedicated to fostering a sustainable future in all activities and preserving the delicate balance of the environment, resources, society and business.

A Symphony of comfort and hygiene

VitrA V-Care 3 Smart Toilets redefine personal hygiene with advanced technology and customisable comfort. With multiple washing options, adjustable water temperature and pressure, and intuitive controls, every cleanse is tailored to your needs. The side panel and enhanced mobile app provide effortless access to personalised settings, while features like a heated seat and drying function ensure maximum comfort. Elevate your daily routine with the perfect blend of hygiene, convenience, and style.

VitrA V-Care 3 Smart Toilets offer the best options to answer your needs, with three variants: V-Care 3 Prime, Core and Base.

V-Care 3 Prime

The prime choice for an ultimate experience

V-Care 3 Core

Hygiene and comfort at the core

V-Care 3 Base

Smart basics for everyday living

Prime

The prime choice for an ultimate experience

V-Care 3 Prime sets the standard for luxury and innovation. With ambient and inner bowl lighting, intuitive side-panel controls, and advanced customisation through the mobile app, every detail is designed for comfort. UV-C cleaning technology, vortex flushing, and a durable duroplast seat provide maximum hygiene for a truly premium experience.

V-Care 3 Smart Toilet Prime hygiene and comfort features

Every detail is designed for your personal hygiene and comfort.

Front and rear wash
The nozzle produces a rear wash suitable for all, as well as a gentler front wash as a bidet for women.

Adjustable nozzle position
Perfect cleansing by adjusting the nozzle back and forth.

Adjustable water temperature
Three different water temperature settings offer a more comfortable cleansing ritual.

Adjustable water pressure
Three different levels of water pressure offer a thorough and pampering wash.

Microbubble
Infused with millions of microscopic air bubbles, the water wraps the skin in a soft, soothing touch—providing a deep yet delicate cleanse and a naturally refreshing sensation.

Oscillating wash
The bidet nozzle moves back and forth for a thorough clean over a larger area.

Pulsating wash
The water pressure alternates between gentle and firm for a massaging wash.

V-Care 3 Smart Toilet Prime hygiene and comfort features

Every detail is designed for
your personal hygiene and comfort.

Adjustable seat temperature
The seat has a choice of three temperature settings to complete your comfort.

Auto open / close lid
The motion sensor automatically raises the lid on detecting your approach, eliminating the need to touch it. The lid and seat can also be opened and closed via remote control or mobile app for added convenience

Ambiance light
The LED night light is automatically activated when ambient light levels fall. Both inner and outer lighting can be adjusted to three brightness levels and switched on or off via the mobile app

Dryer and adjustable air temperature
After washing, the warm-air dryer provides fast and gentle drying. Also, free yourself from toilet roll. Three different levels of air temperature settings offer more comfortable drying.

Air purification
Thanks to powerful deodoriser filters, the air is freshened around the toilet.

UV-C cleaning
V-Care 3 takes hygiene a step further with UV-C light technology that helps clean both the ceramic surface of the bowl and the bidet nozzle. The cleaning cycle is activated while the lid is closed and pauses automatically if the lid is opened—resuming once it's closed again. It's an effortless layer of protection, built right into your daily routine.

Duroplast seat
Durable and long-lasting: Crafted from high-quality Duroplast, the seat is resistant to scratches, stains, and everyday wear—ensuring it stays looking new over time. Its smooth, non-porous surface also supports better hygiene with minimal effort.

Control at your fingertips

VitrA V-Care 3 Smart Toilet Prime enhances your toilet experience with technology, including remote control and a mobile app. It provides full control of your hygiene with its touch-free use and keeps your personalised settings for V-Care in the app.

Mobile app

Smart control, seamless personalisation

The V-Care 3 mobile app offers an unmatched level of smart functionality, far beyond standard controls. Users can create multiple customised scenarios tailored to their individual needs—adjusting settings such as water temperature, pressure, spray duration, and even the sequence of features. These personalised programmes can be saved and activated instantly with a single tap or voice command, making every use effortless. Intuitive and highly advanced, the app transforms hygiene into a fully tailored experience.

Side panel

Style in every detail

V-Care 3 Smart Toilets feature sleek side panels, seamlessly blending style and functionality. Easily access all functions with intuitive controls, all while enjoying a modern, sophisticated design.

Remote control

Smart convenience in your hands

The V-Care 3 remote control offers seamless operation with an intuitive design, allowing you to adjust water temperature, pressure, and washing options with ease. Designed for ultimate convenience, it puts personalised comfort and hygiene in the palm of your hand.

V-Care 3 Core:

Hygiene and comfort at the core

Designed for an elevated experience, V-Care 3 Core combines intuitive side-panel controls with fully customisable washing options via the mobile app. A soft inner bowl light enhances nighttime convenience, while vortex flushing and a durable duroplast seat ensure superior hygiene and comfort.

V-Care 3 Base:

Smart basics for everyday living

V-Care 3 Base offers essential smart toilet features in a sleek, minimal design. Enjoy personalised washing options with adjustable water temperature and pressure, intuitive remote control, and mobile app connectivity. With a durable duroplast seat and efficient vortex flushing, hygiene meets simplicity.

V-Care 3 Smart Toilets features in 3 variants

Designed for simplicity. Engineered for comfort.
With its clean layout and intuitive interface, the V-Care 3
remote puts total control at your fingertips—effortlessly.
Every button is exactly where you expect it to be, so you
can focus on comfort, not instructions.

Designed for superior hygiene and durability

VitrA V-Care 3 Smart Toilets go beyond conventional design with innovative features that enhance both hygiene and longevity. The powerful vortex flush ensures an efficient, splash-free clean, while the durable duroplast seat offers lasting comfort and enhanced sanitation. Together, these advanced technologies set a new standard for smart toilets, delivering a cleaner and more durable bathroom experience.

Vortex flush

Powerful flush, superior hygiene

Vortex flush technology provides a deep and efficient clean with every flush. By creating a strong, circular flow, it ensures effective waste removal and enhanced hygiene—making everyday bathroom routines cleaner and more effortless.

Duroplast seat

Durability means hygiene

The V-Care 3 seat is made from high-quality duroplast—smooth, durable, and easy to clean. Its long-lasting surface helps maintain hygiene and comfort, day after day. Designed for both practicality and peace of mind.
